## NEWPORT DAILY NEWS,

Published every Morning, except Sunday

excepted—by

GEORGE T. HAMMOND,

EDITOR AND PROPRIETOR,

at 144 Thames Street, corner of Frank.

TERMS:

NEWPORT DAILY NEWS, \$3 per annum if paid

in advance. Single copies one cent.

NEWPORT WEEKLY JOURNAL, \$1.50 per annum

if paid in advance. \$2.00 if paid during

the year.

ADVERTISING.

YEARLY ADVERTISEMENTS are inserted on

reasonable terms.

TRANSIENT ADVERTISEMENTS are inserted for

75 cents per square of 10 lines for the first

insertion, and 17 cts per square for each

subsequent insertion. Transient advertisements

are required to pay in advance.

No advertisements can be inserted gratuitously

for charitable or other societies, public institutions

or companies.

Daily News Job Printing Office.

We would respectfully inform our friends in

the city and the country, that we have con-

ducted with our Paper a Job Printing Estab-

lishment, which is furnished with an entire

stock of new presses, type, &c., which will

enable us to do Job work with neatness and

dispatch. Job work will be done at the low-

est prices, for cash on delivery.

FRIDAY MORNING, NOV. 20, 1887.

It comes to pass that, now-a-days, money being tight, the civilized world begins to scold its women. Every individual who aspires to the distinctive appellation of *man*, especially every youngish ditty of such a stamp—has something funny, or bitter, or both to utter against feminine extravagance. The chiding has become universal with the lapse of time. Newspaper and Review continually decry—“folly and waste—folly and waste!” Mesdames your fiances are too full—feathers too fine—laces too costly—jewels too big! Fashions are ridiculous as well as odious. Oh! reform them altogether! Cover your heads. Protect your feet. Loosen your stays. Diminish your skirts. In short prepare for common-sense action, and womanly pride!”

A great deal of this talk is just and true. Much money, without doubt, is expended in foreign silks and shining stones. But we sometimes suspect, after all, that seven out of ten of the mothers, wives and daughters of Christendom, keep constantly an eye to economy and thrift. The women of New England at least, are not drones. And, moreover, the veriest idler and spendthrift of them all may point readily and pertinently to the excesses of the other sex in justification of the foolishness of her own. She can offset satin by broad cloth—plumes by patent leather—and gems, which endure for ages, by horseflesh which perisheth in an hour.

But did woman want even the palest excuse for her prodigality in the matter of dress, and her affection for spangles and finery, little could be gained by any outcry of ours. Experience declares that the softer sex—though emphatically “soft” they be—will bear an inconceivable amount of pressure for the sake of this particular vanity, without perceptibly eaving or dining. Those reformers who can assuage fashion with marked success have yet to appear. Until they do appear men must submit to see their wives and daughters covered, to some extent, with ribbons and gew-gaws.

Take life like a man—take it by the forelock, by the shoulders, by the spine, by every limb a part. Take it just as though it was—as it is—an earnest, vital, essential affair. If we knew better how to take and make the most of life, it would be far greater than it is. Now and then a man stands aside from the crowd, labors earnestly, steadily, confidently, and straightway becomes famous for wisdom, intellect, skill, greatness of some sort. The world wonders, admires, idolizes, and y-et it only illustrates what he may do if he takes hold of life with a purpose—by the head and shoulders. If a man but says he will, at d follow it up by the right effort, there is nothing in reason he may not expect to accomplish. There is no magic, no miracle, no secret to him who is brave in heart and determined in spirit.

ALLIED MARRIAGES OF AMERICANS AND ENGLISH AT NINGPO.—By way of California we have a statement, in a private letter from Manila, which gives an account of the “horrible massacre,” by the Chinese, of all the American and English residents of Ningpo, one of the five open ports lying between Amoy and Shanghai. Our informant could furnish us with no further details, but assured us that the news is beyond all question reliable. The number of Americans and English at that port was estimated at forty, all of whom the captain believes to have been murdered. Our advice from the East via England are later than the above, but they make no mention of any such tragedy.—*Boston Traveller*.

PAPER BAGS BY MACHINERY.—There is a large establishment in Philadelphia, where paper bags are made by machinery driven by steam; the bags varying in size from one to twenty-five pounds capacity. There is an apparatus for spooling and cutting the paper the required width, and a press for cutting the bags after they are manufactured. After this process of spooling, the paper is taken to the machine, which cuts the paper in the shape desired, folds it, applies the paste, and turns the edges required to be pasted, and then passes off the bags on tapes and rollers into a drying room in which steam pipes are introduced. Through this the bags are conducted by continuous tapes and rollers over a surface of about fifty feet, and when thrown out on piles, the bags are dry and ready for packing.—*Boston Bee*.

LUMINOUS INCIDENT.—A few evenings since a family at New Britain, Ct., retired to rest, leaving a night lamp burning in the parlor, filled, as they supposed, with burning fluid. Upon awaking in the morning, they were alarmed upon discovering the room full of suffocating smoke, and the gentleman was horror-stricken to perceive that his wife was as black as his hat, while the lady nearly went into convulsions at the sight of the colored gentleman beside her. The children were also little niggers, all of them, and the furniture of the room turned to ebony. On examination it was found that they had used camphene instead of a fluid.

CHEAP LIVING.—In Paris a man may dine for two pence. In the neighborhood to the Marche des Innocents, there is a certain enterprising Madame Robert, who daily feeds some six thousand workmen, in the open air, yet sheltered from the weather. Her daily bill of fare is cabbage soup, a slice of ham, (or beef) a piece of bread and a glass of wine.

ANOTHER COMET.—A faint telescopic comet was discovered on the evening of the 12th inst., at the Observatory of Harvard College by Mr. Horace P. Tuttle, near the star Theta Draconis. This comet is the sixth which has appeared in 1887. We believe it is the thirteenth or fourteenth discovered at this Observatory, before any information had been received of their having been seen elsewhere.—*Scientific American*.

LOCAL NEWS.

Our Readers are again exhorted to attend the charitable Concert of this evening. We can promise them a charming entertainment. The programme is a rare one, and the performers are able to do it justice.

We have received of their respective publishers a copy of the *Ladies Wreath* for November, and one of the *R. I. Schoolmaster*, for the preceding month. The former graceful magazine we have frequently noticed, and are glad to learn of its continued prosperity. The latter has, lately, passed into the hands of Wm. A. Mowry, and boasts a notable list of contributors. Besides, the improvements in its reading matter, it is adorned, externally, as to its cover, with a picture of the landing of Roger Williams. We hope for its success.

MR. EDITOR:—Please to say something about Lawyer Sheffield's dog in your pleasant way to induce him to keep him to himself. He is reported to be a very dangerous creature and we school children are afraid of him. What can be the matter with the man? Is he afraid to sleep in his nice house? Is there any necessity of his having a watch dog about? If the gentleman don't take care of his animal he will find a small piece of poetry about it as some of us will soon be big enough to write it.

SCHOOL CHILDREN.

We cannot help thinking that Mr. Sheffield's dog is better known to the public than to his master. He is certainly a dog of atrocious demeanor and reputation. We are delighted, in view of the just and amiable character of Mr. S., to reflect that this very objectionable animal must now soon be comprehended among those departed “wicked” who are effectually and mercifully restrained “from troubling” the inoffensive. Unless our memory is false, this identical dog was perpetually instrumental in involving a former master in dispute and difficulty. As he has grown old, his temper has even hardened more and more, until at last, he guards not only his proprietors back-yard, but, like a mythic dragon, half-a-dozen entire thoroughfares. His fate should deservedly be either death, or transportation to some island of the sea.

The Paris Correspondent of the Journal of Commerce reports that six beds of silver have been ordered from one of the largest furniture establishments in that city, by the Pasha of Egypt, in contemplation of the marriage of his son with the present Sultan's daughter. The articles are thus described: The work is of an arabesque character; the bedstead is composed throughout of pierced open metal work, doubly plated with scrolls of inlaid and burnished silver in high relief. The head is pierced and surmounted with chased foliage, the foot harmonizing in character, and being enriched by a large arabesque shell. Fluted and polished pillars at each corner support gracefully arched open work, over which is intended to fall the mosquito net. The only bed furniture used in the East. The silver work is thrown into relief by a lining of crimson velvet, and a mattress and bolster of green satin complete the ornaments of the couch. The cost of the set is estimated at \$70,000.

THE CANKER WORM.—Since noticing that this is the period for the ascent of the grub that produces the canker worm, so destructive to our fruit trees, several persons have told us of experiments for their destruction. Mr. J. Blood makes an embankment of Plum Island sand about the trunk of the tree, and finds that they cannot climb it, but in most instances fall back and die, and can always be killed in rows about the sand. Capt. Wm. Cheney commenced tarring his trees to entrap the grub, about the 10th of October, but has not taken any till within two weeks. On Thursday last he caught two hundred bugs and millers upon a single tree. Those who have trees will do well to look at this matter in season.—*Newburyport Herald*.

LEPROUS IN AUSTRALIA.—It is ascertained that his frightful disease has made its appearance among the Chinese in Australia, and that it is likely to extend to Europeans. A letter from a gold digger contains the following:—“Three days ago the troopers turned the Chinese out of their camp, but allowed them to take their tents, and then set fire to the rest. There are lots of them dying with the leprosy, and their camp was a regular nuisance. A carrier got \$30 for burying one of them; he took the disease from the dead man, and the carrier is now dead. The doctor had the camp set fire to, as the stench used to come into the township, although the camp was three-quarters of a mile away.”—*Scientific American*.

MUSK.—This well-known scent is imported from China, Bengal, and Russia. It has a bitterish and somewhat acid taste, and in color resembles dried blood. This scent is obtained from the musk deer, and possesses a most penetrating and diffusive odor, rather agreeable when feeble, but when concentrated it is decidedly offensive; so diffusive is its power that a few grains will scent a room for years, and it never seems to fade in strength. Tonquin musk is the natural bag containing the musk, and each one weighs about six drachms having in each about eight scruples of pure musk. It is generally more or less adulterated, but the adulterations are easily detected under the microscope or by analysis.—*Scientific American*.

A SIMPLE REMEDY.—A writer in the Baltimore Sun who has been afflicted severely in his family by that appalling disease, bronchitis, has found relief from the following remedy:—“Take honey in the comb, squeeze it out and dilute with a little water, and wet the lips and mouth occasionally with it.” It had never been known to fail in cases where children had been afflicted, and as to be known to swallow. It is certainly a simple remedy, and may be a very efficacious one.

GENERAL NEWS.

ENGLISH NICETY IN BUSINESS.—I think the most curious fact, taken altogether, that I ever heard of the electric telegraph, was told me by the cashier of the Bank of England. You may have heard it. It may have been in print; I am sure it deserves to be. Once upon a time, then, on a certain Saturday night, the folks at the Bank could not make the balance come right by just £100. This is a serious matter in that little establishment. I do not mean the cash, but the mistake in the arithmetic; for it occasions a world of scrutiny. An error in the balancing has been known, I am told, to keep a delegation of clerks from each office at work sometimes through the whole night. A hue and cry of course was made after this £100, as if the old lady in Threadneedle street would be in the Gazette for want of it. Luckily, on the Sunday morning, the clerk (in the middle of a sermon, I dare say, if the truth was known) felt a suspicion of the truth dart through his mind quicker than the flash of the telegraph itself. He told the chief cashier on Monday morning that perhaps the mistake might have occurred in packing some boxes of specie for the West India, which had been sent to Southampton for shipment. The suggestion was immediately acted upon. Here was a nice, lightning against steam, with eight and forty hours the start. Instantly the wires asked “whether such a vessel had left the harbor?” “Just weighing anchor,” was the reply. “Stop her!” frantically shouted the telegraph. It was done. “Have up on deck certain boxes marked so and so; weigh them carefully.” They were weighed; and one of the delinquent, was found heavier by just one package of one hundred sovereigns than it ought to be. “Let her go,” said the mysterious telegraph. The West India folks were delighted with just £100 more, and the error was corrected without ever looking into the boxes or delaying the voyage one hour. Now, this is what may be called “doing business.”

BLOCK ISLAND.—We see it stated that at a recent meeting of the Rhode Island Historical Society, Mr. Beckwith, Secretary of the Society, read a paper on Block Island, in which it was stated that the island was discovered by Verreano, an Italian in the service of Francis I. of France, and that he gave it “the name of Claudia, in honor of the king's mother.” The mother of Francis I. was the famous Louise of Savoy, Countess of Angoulême, who played a very prominent part in the first half of her son's reign, and one by no means beneficial to France. The king's wife was Claude, daughter of Louis XII., a woman as good as Louise was bad, and who was very properly taken away from this wicked world when she was only twenty-five years old, in 1524. She was a much better wife than her scamp of a husband deserved, for though Francis has a great name, and is considered to have been the beau ideal of a gentleman, (he called himself “the first gentleman of France,” and his oath was *foi de gentilhomme*!)—on the faith of a gentleman, yet he was a liar, a thief, a violator of his word, and a tyrant; he was a bad fellow, and knew not how to use well either a good wife or a noble people. Block Island must have been named after Queen Claude, and it is a pity it was not allowed to keep its first European appellation, instead of being known by the name of an old Adrian Block—properly Blok—who saw the place in the next century, and probably knew nothing about Verreano's discovery. The name of so good a woman ought to have been preserved, and the forgetfulness of it is in painful contrast with the preservation of so many of the names that were given to American things and places in honor of the house of Stuart, and which stand the Atlantic coast and the old thirteen States, though our ancestors, generally speaking, abhorred that hated line.

A TERRIBLE DEATH.—Recently, in St. John, N. B., on a dark night, a man walked out of one of the wharves in that city, when the tide was out. He dropped his way along in the mud, but instead of taking a course which would extricate himself from his unpleasant predicament, he wandered up among the spiles beneath the wharf, where, of course, he became more bewildered than ever. The rising tide made him conscious of his danger, and by shouts and noise he was enabled to attract the attention of persons passing in the vicinity, but too late for success. As the tide rose, he climbed to the top of the spiles, and through a small aperture in the wharf sufficient for one of his arms, he was enabled to inform them of his situation. His position and feelings can be imagined, when the water was every moment rising around him, and he could not be extricated. He shook hands with his friends, passed through the hole all his money and valuables he had about his person, and just as the water was closing over him, after giving some directions concerning his family, he bade his friends good bye, and the gurgling water beneath announced that all was over. His body was recovered when the tide receded.

A WORD ABOUT THE TIMES.—We are glad to announce that amidst the general gloom which has pervaded all classes of the community for some weeks past, there are now visible some signs of improvement in various quarters. It is an acknowledged fact that for all practical purposes there is an abundance of money in the country; and now that the panic has spent its full force, those who have been “hoarding” are beginning to come out, and are looking around for some safe opportunity to invest it. The New York City banks hold nearly \$20,000,000 in specie, which is a much larger sum than they have had for many months; stocks have rapidly advanced on the exchange; several large manufacturing establishments are beginning to renew their operations; and the great grain crop is flowing to the seaboard. These are all cheering signs, and we hope soon to see the general interests of industry once more in a healthy and prosperous condition. Let us all take courage, for “the good time is coming.”—*Scientific American*.

The weight of the Minie ball is about one and half ounces, and the weight of powder for a charge is about one-tenth as much. The cartridge is so constructed that ejected in paper, and greased by dipping it in tallow, it slips easily into the barrel till it arrives at the charge. In this respect the Minie has greatly the advantage in saving of time and labor of forcing down the ball with the ramrod. These balls have a range of ten to twelve hundred yards, and are used in the army of the United States, and in the militia of the States, and just as easily used as any shot range or point blank shot.

The London Times says that next to the fall of Delhi and the re-advance of the troops for the relief of Lucknow, the most prominent feature of the Indian war is to be found in the continuous extension of the mutiny throughout the ranks of the Bengal army. There can no longer exist any doubt of the reality or comprehensiveness of this contagion, which has shown itself in the true Bengal type. The new outbreaks are in Seinde, the upper province of the Bombay presidency, and they were generally crushed or thwarted, it is not known to what extent the disaffection has been carried.

The Navy Agent of New York is at present airing his Democracy in Kansas, where he has carried a large number of portable cottages on speculation. Money being scarce, the operation threatened to be a losing one, till the bright idea was started of disposing of the cottages to the government for troops. It is not apprehended that, under this arrangement, the patriotic office holder will suffer.—*Providence Journal*.

The Sophomore class of Yale College, at New Haven, had their Burial of Euclid ceremonies on Friday evening. The procession was a large one, and well got up, many of the dresses being highly amusing. The funeral car was a large affair, drawn by four horses, preceded by two led horses, covered with black. As usual the procession visited all the young ladies' schools, and a very large number of ladies and gentlemen were in the street to enjoy the fun.

JUST RETRIBUTION.—At Dover, last week the persons charged with placing obstructions upon the Boston and Maine Railroad on the 4th of March last, the Jury being unable to agree upon the case at the last term of the Supreme Judicial Court, have at this term been found guilty, and sentenced to States Prison for life.

Daniel F. Tieman has been nominated for Mayor of New York by the opponents of the present Mayor. He is a Democrat, and one of the Governors of the Alma House. He bears a high character, public and private, and has had experience in municipal affairs.—*Providence Journal*.

The boat arrived from Fall River at 1-4 past 1 this morning.

DIED.

At Oudre Point, near this city, on Thursday morning, the 19th instant, Mrs. Esther K. Lawrence, wife of William Beach Lawrence, and daughter of the late Archibald Gracie, of New York.

The friends of the family are respectfully invited to attend her funeral on Saturday at 2-1-2 o'clock at Trinity Church.

In this city, 18th inst., ANNA MARIA, daughter of John A. and Mary A. Coan, aged 2 years, 1 month, 14 days.

Woonsocket Patriot please copy.

At San Francisco, Cal., on the morning of the 16th of Oct., Mr. James E. Ash, formerly a resident of this city, aged 60 years. The letter which brought to the family of the deceased, the tidings of this affliction, was filled with the warmest expressions of departed worth. Its writer, an esteemed citizen of Newport, deplored in the saddest terms the loss of a true and beloved friend, and mentioned proudly the universal sentiments of respect and approval which his conduct had earned for his name in the land of his adoption. Upon those who, in this city, knew and remember him, a shadow of grief has fallen, that the thought of many virtues only can illumine. Time, though it may dry our tears, will never utterly console us. A grave has been made, perforce upon distant plains, but the memory of the sleeper abides constantly and closely in our hearts.

SPECIAL NOTICES.

G. H. P. Champlin, Buffalo, N. Y., Proprietor.

Observe that the face of the signature of the proprietor is on the wrappers of each bottle; none otherwise genuine.

BAINES & PARK 304 Broadway, N. Y. Wholesale agents.

Sold in this city 2 cents per bottle by R. J. TAYLOR.

READ! READ! READ!—Ye affected read the following Certificate of cure of over 20 years' standing:

H. T. BIRMINGHAM.—Dear Sir:—I have been troubled with an affection of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues, and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am truly yours, M. McCORMICK.

Lewistown, Pa., Jan. 28, 1887.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

Hon. Wm. Bigler, ex-Governor, Pennsylvania.

Hon. Thos. B. Florence, Philadelphia.

Hon. J. C. Knox, Judge, Toga Co., Pa.

Hon. J. S. Black, Judge, Philadelphia.

Hon. D. R. Porter, ex-Governor, Pennsylvania.

Hon. Eliza Lewis, Judge, Philadelphia.

Hon. R. C. Grier, Judge U. S. Court.

Hon. G. W. Woodward, Judge, Philadelphia.

Hon. W. A. Porter, City Solicitor, Philadelphia.

Hon. John Dugan, ex-Governor, California.

Hon. E. Banks, Auditor General, Washington, D. C.

Many others, if necessary.

WILLIAM H. SMITH, DENTIST.

HAZARD & CASWELL, DRUGGISTS and PHARMACEUTISTS, 132 Thames Street corner of Church Street, And 12 Washington Square.

ALPINE HAIR BALM.

Restoring Gray Hair to its original Color. It is warranted to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the root of the Hair, which passes through the Hair and gives a natural color without the use of Hair Dye. It keeps the hair from falling off.

Mr. Mason, Sir:—I have found a Hair Restorative in your Alpine Hair Balm, which has not merely changed the gray locks for their original, but has given them a glossy hue, which before they never had.

JEREMIAH S. ROSS, 129 Wickenden street.

Providence, May 20, 1887.

C. A. P. Mason.—Dear Sir:—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling off; but on the third application of the Balm it ceased falling, and is now fairly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic would try it, they would soon become “living epistles, known and read of all men.” As having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESMOTT, 227 Westminster street, Providence.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir:—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy. Very respectfully, SARAH LYON.

Providence, May 20, 1887.

STEPHEN SHOVE,  
No. 51 North Main st., Fall River, Mass.

A CARD TO THE LADIES.

DR. DUDMAN'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting irregularity, and removing all obstructions from whatever cause.  
All medical men know, as well as many others, that no female can enjoy good health, unless she is regular, and when there is obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many complaints among young females. Headache, Pain in the Side, Palpitation of the Heart, Lombling of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils, and may always be used successfully as a preventive.  
Price \$1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing \$1 in STURGES & CO., Box 801, New York Post Office, can have the Pills sent (freight) by mail to any part of the country.

ASSIGNEE'S NOTICE.

BENJAMIN B. LAWTON & BENJAMIN B. CORNELL, both of the city and county of Newport, State of Rhode Island, co-partners, doing business at said Newport, under the name and style of Lawton & Cornell, have this day executed an assignment to me in trust of all their effects, real and personal, for the benefit of their creditors.  
All persons having claims against said firm are requested to present them forthwith, and those indebted to make immediate payment to  
CHARLES C. VAN ZANDT,  
Newport, Sept. 12th, 1857. Assignee.

NOTICE is hereby given that the subscriber has been duly appointed Administrator of the estate of ABEL MURGER (THOYD), late of Fall River, in the county of Newport, deceased, and has taken upon him that trust, by giving bonds as the law directs.

And all persons having demands upon the estate of said deceased, are required to exhibit the same; and all persons indebted to the said estate are called upon to make payment to  
JOHN G. SARGENT,  
Administrator.  
Fall River, Sept. 28, 1857.

Attention, Tax Payers.

FINAL NOTICE is given that the City Tax must be paid on or before October 1st inst. And all taxes unpaid on that date will be proceeded with by the City Council.  
WM. B. BARKER, Collector.  
Newport, Sept. 28, 1857.

NOTICE—Mrs. Finkenstot informs her friends and customers that she will leave the city soon, and will dispose of her stock at once until that time; she has worsted work, trimmings, millinery and fancy goods; many of the articles will be sold at less than cost. Horses and carriages of every description furnished at short notice; there is fine bathing half a mile from the house. Families desiring to spend the summer in the country will find this one of the most delightful locations on the Island.

CHARLES RUSSELL, JR.  
AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Solicitor of PATENTS

(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)  
No. 76 STATE, OPPOSITE KILBY ST., BOSTON.  
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESSFUL AS THE BEST, he would advise any who have abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patent grants in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors. TESTIMONIALS.  
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring patents. He was very successful in securing patents, and was very generous in his advice, and was very prompt in his action. He had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form so acceptable to the Patent Office.

EDMUND BURKE, Late Commissioner of Patents From the present Commissioner.

August 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.  
CHAS. MASON.  
Sept. 12, 1855. Commissioners of Patents.

NOTICE.  
MY wife Laura having concluded herself in an unbecoming manner, I hereby forbid all persons trusting her as a solicitor, or if I am determined to have no debts of her contracting, unless the same is contracted upon the faith of a written order from me.  
JOHN TOMPKINS.  
Newport, Sept. 8, 1857.

MISCELLANEOUS.

1000,000 BOTTLES SOLD! Entered according to Act of Congress in the year 1853, by J. RUSSELL SPALDING, in the Clerk's Office of the District Court of Massachusetts.

All Infringements will be dealt with according to law!

J. RUSSELL SPALDING'S ROSEMARY

This great and popular preparation is decidedly one of the nicest and best articles in the world for the HAIR!

It imparts a richness and brilliancy, cleanses ornaments, invigorates, embellishes, removes dandruff, relieves headache, and has probably been used for restoring and preventing the falling out of the hair with as much success as any article ever known. It has stood the test of time and use, and all rely upon it.

Sole Proprietor, J. RUSSELL SPALDING, Manufacturing Chemist, Principal Depot, 27 Tremont St., opposite the Museum, Boston, Mass., where all orders should be addressed. The fac-simile of his signature is on every bottle of the genuine.

For sale by R. J. TAYLOR, and HAZARD & CASWELL.

LOTTERIES.

GEORGIA LOTTERIES.

THE Lotteries of Anderson & Son, are have sworn commissioners appointed by the State to superintend the drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Georgia, as interferences are legalized by a special law in that State. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon, Ga., every Saturday throughout the year.

If no particular class is named, orders are filed by the first drawing to take place after the communication comes to hand. The prices of tickets are from \$1 to \$10. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket and are so simple that none can fail to understand them. There is no combination of numbers, which is so mystified the community for years past. Prizes vary in amount from \$10 to \$50,000. Every prize being drawn, and result of drawing, or other information, forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans Delta, Savannah News, New York Dispatch, and New York Atlas. Write your address plainly and direct.

Anderson & Son, Managers, Macon or Savannah, Ga.

Prizes are paid in full: no per centage deducted from prizes, as in other lotteries. All communications are strictly confidential.

LOTTERIES.—The well known Mary

Land Consolidated Lotteries, of which I. P. Feltus & Co. are managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1.00 to \$20.00. No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address T. HUBBARD & Co., No. 39 Fayette st., or Box No. 40, Baltimore, Maryland.

The Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz. Sun, Clipper, Export, American Argus, of Baltimore, and the National Intelligencer and Union, of Washington, D. C.

LOTTERIES.—The Lotteries of Samuel

Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filed in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$10 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans Delta, Savannah News, New York Dispatch, and New York Atlas. Write your address plainly, and direct S. SWAN & Co., Augusta, Georgia.

Prizes paid in full—no per centage deducted from prizes as in other lotteries. All communications strictly confidential.

KEEP COOL!

W. F. Shaw's PATENT GAS HEATING AND GAS COOKING STOVES.

THE only true principle whereby all unpleasant and injurious odors are avoided. This apparatus is warranted to cook the food for a family at one quarter part the cost of doing the same by any other gas stove ever offered to the public.

Secured by 8 American, 1 English and 1 French letters patent. Invented and patented by W. F. SHAW.

The First Patent for ONLY GOLD MEDAL awarded for GAS STOVES by the Massachusetts Charitable Mechanic Association, was awarded to W. F. SHAW, who has also received a medal from the American Institute, N. Y.

These are the only desirable inventions for cooking or heating by gas ever offered to the public, and are the results of upwards of seven years' experiments and experience of the inventor and patentee.

W. F. Shaw's Patent Gas Stove, Lamp, or Gas Heater for boiling small quantities of water by being placed over any gas burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the very best article yet manufactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to charcoal, and should have a place in every household.

Satisfactory references from reliable parties using them in this city, can be had upon application at my office, where the public are invited to call and examine the articles.

GEO. F. HATHAWAY, No. 8 Arnold Block, 47 North Main-st., Providence.

NOTICE.

As some parties make statements without regard to the truth of knowledge, and are desirous of inserting a notice in the President of the company, from which the original and genuine Lykens Valley coal is mined—and again say that the real article can be found at the yards of Messrs. Oman & Bradford, Messrs. Gen. Bowen & Co., and Mr. Chas. Williams.

REMINOTON & HENRY, Fall River, June 22, 1857.

OFFICE LYKENS VALLEY COAL CO., Mount Co., June 16, 1857.

This is to certify that the Lykens Valley Coal Company have shipped and are shipping to Messrs. Remington & Henry, of Delaware city, Delaware, coal from their original and best veins, which, according to the judgment of the subscriber, have never produced so uniformly good coal as we are now shipping to Delaware city.

GEORGE R. HOFFMAN, Pres't Lykens Valley Coal Co.
